

KHON MENGHONG

Full-Stack Web Developer

📍 Phnom Penh, Cambodia ✉️ menghong.khon@gmail.com 🔗 github.com/menghong-khon
🔗 linkedin.com/in/menghong-khon

PROFESSIONAL SUMMARY

Dedicated Web Developer and Web Programming student at Passerelles Numériques Cambodia (PNC). Proficient across the full stack—from responsive, accessible front-end interfaces to Flask-powered REST APIs and relational database structures. Highly passionate about building clean, production-ready software solutions and continuously refining technical competencies through hands-on project experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, UI/UX Fundamentals, Bootstrap
Backend: Python, Flask, RESTful API Design, Relational Databases (SQL), PostgreSQL, SQLite, SQLAlchemy
Tools & Tech: Git, GitHub, VS Code, Vercel, Figma, Linux/CLI

FEATURED PROJECTS

E-Commerce Web Application

HTML/CSS/JS + Flask + SQLite

Developed a full-featured online store with shopping cart capabilities, dynamic product listing, and custom backend checkout flow handling.

Technology Store System

Flask + PostgreSQL + Bootstrap

Built an electronics inventory management platform featuring full product CRUD functionality, filter queries, and relational data architecture.

Flask RESTful CRUD API

Flask + SQLAlchemy

Engineered a backend REST API following best practices for secure endpoints, structured request handling, and relational ORM modeling.

DEVELOPMENT JOURNEY

2025 – Frontend Foundations

Mastered HTML, CSS, JavaScript fundamentals, building dynamic static sites.

2026 – Backend & Databases

Acquired backend design skills in Python, Flask, SQL databases, and APIs.

2026 – Full-Stack Projects

Built and shipped end-to-end applications including CRUD platforms & web stores.

EDUCATION

Passerelles Numériques Cambodia (PNC)

Associate Degree / Diploma in Web Programming

2023 – Present | Phnom Penh

Intensive technical training focusing on web development, algorithms, database systems, agile methodologies, and professional soft skills.

CERTIFICATIONS & AWARDS

• Responsive Web Design

freeCodeCamp (2025)

• Python for Everybody

University of Michigan / Coursera (2025)

• Campus Web Dev Workshop

PNC Tech Club (2026)

• 2nd Place – Tech Hackathon

Student Developer Competition (2026)
